

Number Shape Robot Number Bonds to 5 Activity

Invite children to explore number bonds to five with Robbie Robot and his friends.

You will need:

- Number Shapes or Number Shape Cut-Outs
- Number Shape Robots Number Bonds to 5 Posters

Activity

Explain that Robbie Robot and his friends are number shape robots. This means that number shapes fit on to their bodies! Provide some number shapes for children to explore matching on to each robot poster. Challenge children to write a number sentence to describe the number shapes they have used to fill each robot. What do they notice about the totals?

Number Shape Robot Number Bonds to 5 Activity

Robbie Robot and his friends are number shape robots! Find the matching number shapes to fill each robot.

Which number shapes did you use?

Can you write a number sentence about the number shapes you used?

What is the total?

Can you make another number shape robot?

What do you notice?

What is the same and what is different?
